ABOUT ME

I am a Computer Science student at BINUS University driven by the intersection of robust software engineering and human centric problem solving. My technical foundation spans from architecting resilient infrastructure security systems to developing modular, high performance applications. As Chairman of HIMTI, I specialize in bridging the gap between complex code architecture and collaborative teamwork, orchestrating large scale technical initiatives through structured frameworks. I am highly drawn to Challenge Based Learning and am eager to collaborate with cross functional team to engineer intuitive, secure, and scalable software solutions that deliver meaningful real world impact.

EDUCATION

Bina Nusantara University (BINUS) Jakarta, Indonesia

Computer Science Undergraduate, GPA 3.69/4.00 *Sep 2024 - Present*

Relevant Coursework: Software Engineering, Artificial Intelligence, Data Structures & Algorithms, Algorithm and Programming, Database, Object-Oriented Programming.

Brawijaya Smart School Malang, Indonesia

Natural Science Major *14 July 2021 - 3 Mei 2024*

LEADERSHIP & TEACHING EXPERIENCE

Bina Nusantara University (BINUS) Malang, Indonesia

Freshmen Leader - Student Orientation Program *July - Sept 2025*

- Executed structured academic onboarding pipelines for incoming freshmen, accelerating their campus adaptation and reducing initial transition friction.
- Begin each line with an action verb and include details that will help the reader understand your accomplishments, skills, knowledge, abilities, or achievements.

Duta Binusian BINUS@Malang *Aug - Des 2025*

- Delivered targeted academic support and technical tutoring for School of Computer Science (SOCS) students.
- Streamlined the technical onboarding process for junior students.
- Diagnosed specific learning failure points among students and implemented personalized coaching strategies to effectively bridge their knowledge gaps.

Teaching Assistant - Algorithm & Programming in C *Sept 2025 - Jan 2026*

- Mentored students in foundational C programming and algorithmic thinking.
- Designed and deployed targeted quizzes and practical exercises, specifically engineered, algorithmic efficiency, and memory safety in C.
- Provided additional consultation sessions to help students strengthen problem-solving and coding proficiency.

Freshmen Partner - Student Mentorship Program *Sept 2025- June 2026*

- Mentored and supported new students throughout their first academic year to help them adapt to university life.
- Facilitated strategic knowledge transfer and campus resource allocation, effectively resolving initial academic bottlenecks.

Himpunan Mahasiswa Teknik Informatika (HIMTI) BINUS Jakarta, Indonesia

Coordinator Event Division of DIGIFEST - HIMTI@Malang *July 2025 - Sept 2025*

- Managed complex logistical pipelines and external speaker communications.
- Directed the end-to-end execution of DIGIFEST 2025, a large-scale technology festival encompassing technical workshops and competitive programming events.

Academic Event Team - HIMTI@Malang *Jan 2025 - Des 2025*

- Coordinated the end-to-end execution of academic and technology-focused events.
- Managed communications and logistical requirements with external industry.
- Designed and implemented structured event workflows with team.

Chairman of HIMTI 2026/2027 *Feb 2026 - Present*

- Spearheaded the strategic direction for HIMTI 2026/2027, overseeing cross-functional divisions to enhance organizational scalability and operational efficiency.
- Engineered standardized Work Breakdown Structures (WBS) for flagship events, reducing planning friction, mitigating operational risks, and improving process maintainability for future cohorts.
- Supervised event timelines, logistics, and post-program evaluations, establishing clear failure points and monitoring strategies to ensure the reliability of subsequent projects.

VOLUNTEER EXPERIENCE

Initiator, HIMTI LUMINOVA Coaching Clinic UI/UX and Business Model Canvas 2025

- Spearheaded a city-wide digital literacy initiative across multiple high schools in Malang, delivering modular UI/UX and Business Model Canvas (BMC) training to accelerate student entrepreneurship.

Volunteer Web Developer, DIGITERA UMKM Program 2025

- Developed and supported the implementation of a website for SUPER HERU, helping enhance the business's digital presence and marketing reach.

Volunteer, Krea-Ton Teaching Basketball in Sapptorengggo Village 2025

- Led the development and executed structured physical education frameworks focusing on fundamental basketball mechanics for elementary students in Saptorenggo Village.

SKILLS & INTERESTS

Technical Skills:

Programming: Python, Java, C, SQL, PHP, Go, C++

Web Development: Laravel, HTML, CSS, JavaScript

Cloud: Microsoft Azure, AlibabaCloud

Tools: Git, MySQL, Docker, Cisco

Languages:

Indonesian (Native), English (Proficient)

Interests:

Project pipeline (Software Engineering), Cloud Computing, Security & Network
